

Stream digital content to your TV.

The LinkTheater HD is the missing piece to your entertainment system. It will seamlessly integrate with your stereo components as well as your TV. The LinkTheater will stream high definition content from a Windows or Macintosh computer, network attached storage (NAS) device, USB hard drive or DLNA media server. Best of all, just plug-in your video camera or other USB storage device into the LinkTheater's front USB port and it will automatically be backed up to any connected USB hard drive.*

Compatible with DLNA™

Play back from any DLNA CERTIFIED server

High-Definition Video

720p and 1080i

Versatile File Format Support
